Continuing to support 24 hour emergency response from around Australia.

Commencement of operations of our Non-Emergency Patient Transfer Service, in conjunction with our counterparts in South East Section.

Solid financial performance result of \$4.9 million in revenue.

HRH Prince William and Catherine Middleton nominated the Flying Doctor as the only Australian Charity to benefit from their Wedding Gift Fund.

Qantas 90th Birthday Celebrations recognised their long association with the Royal Flying Doctor Service by asking everyone who attended to donate a gold coin to support our work.

Continued support and celebration of our annual John Flynn and Flying Doctor Day Luncheons with guest speakers Maggie Beer and Derryn Hinch.

Private donation of \$150,000 to commission and support the delivery of our Education Program Simulator.

Private legacy of \$667,000 from an estate on the last day of the financial year.

Chairman and CEO's Report >

Chairman's Message >

A renewed focus and vision for RFDS Victoria

This year has been incredibly positive and one of significant change as the organisation continues to develop its programs and activities.

It is pleasing to report that the financial results for the Royal Flying Doctor Service (Victorian Section) for the 12 months ending 30 June 2011 represented a strong position with an increase in revenue by almost \$526,000. This was made up by strong increases in Bequest, Planned Giving and donation income streams.

In 2011, the Board took the opportunity to strategically review its governance structure to best position the organisation to achieve its goals and deliver to future expansion plans. To that end, I would like to thank Peter Kronborg, who, after three years, formally tendered resignation of the role of Chair, and who has now taken up the role of National Board Representative and Board Member within the Victorian Section. I would also like to thank Jane Harvey, whose support at a local and national level has contributed to much of the ongoing Victorian success, having tendered her resignation in February.

Sadly, Michael Long also tendered his resignation after an astounding 41 years of valuable contribution. Both will be invited to assist with the establishment of a newly formed Emeritus Council.

We welcomed two new Board members in April, bringing considerable expertise and experience. Robyn Lardner was appointed to the Board effective 1st March and will bring both her health promotion and rural perspective to the Board. We also welcome Bernie Delaney to our Board, who will chair our Audit and Risk Committee. Rasa Bertrand was appointed to Deputy Chair and will round out our newly energised and engaged Board to effectively drive direction and stewardship of the Victorian Section.

With a strong platform for growth, increased capacity and structures, the challenge ahead will be to deliver our vision of providing the finest care, to the furthest corners, both within Victoria and more broadly, Australia. During the year, strategy planning workshops were conducted to re-ignite our vision and ensure our mission can be sustained. This will ensure we are able to capture the attention of, and remain relevant to Victorian communities with our health and fundraising messages.

Of course, in addition to a passionate management team, the RFDS depends on the unwavering commitment of so many supporters, volunteers and organisations who generously provide their time, expertise and donations to further the services of the RFDS.

On behalf of the Board, I would like to extend my sincere thanks to our management team, our supporters and volunteers whose hard work has made it possible for the Royal Flying Doctor Service to fulfil its objectives and achieve the financial outcomes reflected in the RFDS's most recent accounts.

I would also like to pay tribute to my fellow Board members for their commitment in 2011 and I am looking forward to the year ahead. Once again, there will be significant challenges facing the Victorian Section in 2012, however the organisation is well equipped to manage these changes and will continue to strive to achieve its important vision and mission.

A stylized, handwritten signature in black ink, appearing to read 'Murray Rogers'.

Murray Rogers AM

Chairman
RFDS, Victorian Section

CEO's Message >

Strengthening the health of Victorian communities and contributing to the health of every Australian in a rural and remote location

This was an extremely busy and rewarding year for the Royal Flying Doctor Service in Victoria as we embarked with renewed energy to set the foundations for creating stronger awareness of our services across Victoria, improving the health of Victorian communities and being able to deliver fundraising support to our counterparts around the country.

Raising the profile of the RFDS in Victoria remains paramount as we seek to be heard in the ever increasing cacophony of charitable and health promotion work that is vital as needs increase in all areas of the community. To this end, we have begun to deliver events that bring us closer to the Victorian community.

Over the year, we have been fortunate enough to be able to deliver our Pit Stop Men's Health program in a variety of locations – the Australian Moto GP, the Australia Day event in the Kings Domain and Melbourne International Air Show at Avalon. Once again, we had a very early start at the Melbourne Wholesale Markets, in conjunction with Fresh State, to deliver men's health checks to a very keen audience. This Pit Stop program would not be possible without the generous support of GlaxoSmithKline, our partner for this program and we thank them for their ongoing support.

In early December 2010, we successfully managed the move from our offices in St Kilda Road, to Richmond. The expanded space and improved facilities will ensure we are well positioned for future growth, ensuring that the Victorian Section has the right resources to lead into the future.

We have also begun to promote the Flying Doctor Service in primary schools with our Education Program, 'Look! Up in the Sky!', and have been able to send almost 2,500 student workbooks and teacher manuals to 120 schools. In March, we took possession of our aero-medical simulator and will now use that at community events and within primary schools to promote and educate the public about the Flying Doctor. We look forward to this simulator garnering local media attention as we travel around Victoria.

None of this would be possible without the generous donations of our ever-increasing supporters. Over the year, we brought our supporters together to celebrate and learn a little more of our Services, including the John Flynn Luncheon in November. Maggie Beer, as our inspired guest speaker gave us all some unique insights into her gourmet world. Continuing with our Luncheons, we also celebrated Flying Doctor Day in May with a timely presentation from Derryn Hinch who spoke of his 50 years in the media spotlight.

The Outback Tours continued to be an outstanding success for all those involved. In July 2010, we travelled to Western Australia with a spectacular tour from Broome to Darwin and Alice Springs. With the wonderful support and engagement of Bayview Travel, we were able to extend our plans to accommodate a Queensland Outback Safari in June 2011 for 30 of our supporters.

We will continue to expand our horizons and with the infrastructure and staff to meet these needs, I am confident we are well poised to deliver our strategies and vision of improving the health of Victorian communities and providing support to our counterparts around Australia.

Thanks must go to the Board, to the management team, staff and volunteers for their outstanding contribution over the year.

A handwritten signature in black ink, which appears to read 'Scott Chapman'. The signature is fluid and cursive, with a large 'S' and 'C'.

Scott Chapman

CEO
RFDS, Victorian Section

600+

Pit Stop is an innovative program that engages men by using health promotion messages that are aligned to the names of car components.

A quick 'Pit Stop' can make all the difference

Our preventative health care program for men, Pit Stop, continued to be rolled out across Melbourne and regional Victoria throughout the year. Pit Stop is an innovative program that engages men by using health promotion messages that are aligned to the names of car components. It is designed to encourage and foster men to think and act as proactively about their health as they do about their cars, by delivering the program in a car workshop environment.

The program can be customised and involves a series of health checks, including:

- Chassis check (waist)
- Torsion check (flexibility)
- Fuel and exhaust (alcohol and smoking)
- Oil (blood pressure)
- Duco (skin care)

With the generous support of GlaxoSmithKline we were able to perform over 600 health checks in locations such as the Australian Moto GP at Philip Island, the Australia Day Fair in the Kings Domain, at the Melbourne International Air Show at Avalon and at the Melbourne Wholesale Markets.

the Patient Transfer Service
provides Victorians living in rural
and regional communities with
a faster transport option

Faster transport

Capable hands

With the support of the South East section, the Non-Emergency Patient Transfer Service was launched in Victoria in early 2011. Based at Essendon Airport, the Patient Transfer Service provides Victorians living in rural and regional communities with a faster transport option, so that they can have improved access to specialised medical care. The Patient Transfer Service offers:

- Care for low, medium and high acuity patients
- An escort flight nurse throughout the journey
- Road transfers, to and from hospital, to airport
- Transfers between regional towns and Melbourne, or beyond.

The Flying Doctor Non-Emergency Patient Transfer team ensures patients can now receive the finest care, whilst enjoying reduced travel times and improved access to medical care.

In the Community >

We are immensely grateful for the generosity and support of community groups, business organisations, volunteers and individuals who support our work in so many ways.

Colombo Creek Classic

In its sixth year, the 2011 Colombo Creek Classic is a charity event which consists of an annual cricket match and black tie event. Held at Buangor Cobb and Co in February, the cricket match is a battle between the Graziers XI and Farmers XI. Starting as an informal gathering of friends, where players could get back to their country roots, this year the hotly contested trophy was won by the Farmers.

The cricket match and black tie event was a great success, attracting over 150 spectators and raising \$30,000 for the Royal Flying Doctor Service.

Maggie Beer at the John Flynn Luncheon

Highlighting the recent food phenomenon, we were thrilled to have Maggie Beer take us through the ups and downs of the journey to where she is today at our annual John Flynn Luncheon in November. RFDS Flight Nurse Marianne Testi also delighted the crowd as she recounted her experiences working for the RFDS for over 20 years in Derby, Western Australia.

The RFDS Joy of Christmas

Christmas merchandise, consisting of cards, diaries, calendars and plum puddings continued to bring Christmas joy to our supporters whilst raising an extra-ordinary \$122,112. This program could not have been delivered without the incredible support of our volunteers and staff who generously gave their time to “pick, pack and send”.

The Bayside Auxiliary

The Bayside Auxiliary continued their remarkable contribution and support of the Royal Flying Doctors with a donation of \$24,504.90 towards two Therma Cots. Here the Committee was congratulated by our CEO, Scott Chapman, at the Volunteers Recognition luncheon.

Flying Doctor Day Luncheon

In May we joined Derryn Hinch who entertained us with stories from his 50 years in the media spotlight while Nino Di Marco, CEO of RFDS Queensland Section talked first-hand of the RFDS involvement in the recent floods. Nino also presented our Chair, Murray Rogers with a rare photo of the entire Queensland Fleet assembled due to the evacuation of RFDS bases following the floods and Cyclone Yasi.

The Outback Car Trek

Organised by Bill Patrick, the Outback Car Trek shares funds between RFDS Sections based on vehicle origin. The Trek is an amazing test of endurance, not just for participants, but also for the much-loved pre 1974 vehicles, which travel an average of 550km a day across the most rugged and remote terrain in Australia.

The 22nd annual Outback Car Trek set off in June, from the RFDS Dubbo Base and travelled some 4000km, through four states before reaching their final destination of Uluru. \$119,741.91 was raised for the RFDS Victorian Section.

Keep Us in the Air >

The Flying Doctor Service is not fully-funded by Government, so donations received from supporters are vital for continuing our services. This year, organisations and individuals have contributed **\$4,398,613** to RFDS Victoria. Almost \$2.5 million of this has come from donations raised through newsletters and our Flying 1000 Program.

In this financial year, we have continued to support the Rio Tinto Life Flight jet in Western Australia with another **\$1,000,000**.

In addition, to this, with money raised in Victoria, we were able to support the RFDS, Queensland Section with a cheque for **\$150,000** to help with Cyclone Yasi impact.

In 2011, we also began a **Support Grant Program**, whereby each Section will have the opportunity to request funds for projects. This year the Support Grants program allocated funds to the following programs:

Primary Care Practice Nurse for chronic disease patients in far west NSW	\$65,000
Emergency Retrieval and Sedation Registry for disturbed patients on aircraft	\$52,000
Patient Safety and Human Error Training Program	\$48,000
Continuing Professional Development for medical, nursing and allied health staff	\$50,000
Employment of Dental staff for remote dental program in WA	\$100,000
Research into the Bacterial load on Aircraft Services	\$10,000
Aero medical simulator for education purposes in Central Division (contribution)	\$50,000

Fundraising Investment by State

Fundraising Dollars Investment

With thanks
to our donors >

Christmas can be a very busy time. In our Victorian section, we have a unique way of supporting the Flying Doctors with unusual gifting ideas.

This year, the RFDS On the Road Program in Western Australia sent a list of gifting ideas that would help with health education and support remote communities. These included snake bite kits, skin cancer prevention kits, airstrip windsocks and frames and first aid training resuscitation dolls.

Our generous Victorian supporters gifted \$39,896 to the On the Road Program to purchase these education and training resources to help support health education activities.

Thanks to a special friend

The RFDS is very grateful to one of our most dedicated supporters, Mrs Marie Jones, for the generous donation of a portable ultrasound machine for the Western Operations Base in Derby Western Australia.

Mrs Jones regularly travels on the annual outback tour and is very familiar with the sacrifices and hardships many of our staff experience in remote locations and was keen to assist their work in the vast regions of the Kimberley. Our deepest thanks Marie from us all.

Look! Up in the Sky

Reaching out to schools with our Flying Doctor story

Our 'Look! Up in the Sky' education program is off to a flying start. The curriculum resource is designed to build awareness and promote the history, values and service of the RFDS and appeals to primary school students in Grades 3-6. Teacher handbooks have been sent to over 130 teachers across Victoria and our new website www.flyingdoctor4education.org.au enables teachers and students to connect even further.

Thanks to the generous support from a private donor, in March we were able to take possession of our new exhibition simulator. The fuselage is outfitted as though it were a real RFDS plane.

With many thanks to our sponsor Nissan, we now have a Nissan X-Trail on the road, towing the simulator around Victoria, for promotions at schools and public events.

Summary Financial Report 2010/11

For the year ended 30 June 2011

Director's Statement

The financial statements and other specific disclosures are a summary of and have been derived from the Royal Flying Doctor Service of Australia (Victorian Section) full financial report for the financial year. Other information included in the summary financial report is consistent with the Service's full financial report.

The summary financial report does not, and cannot be expected to, provide as full an understanding of the financial performance, financial position and financing and investing activities of the Service as the full financial report.

A copy of the Service's 2011 Annual Financial Report, including the Independent Audit Report, is available and will be sent upon request.

Major Developments

A review of staffing resources was completed in late 2010 to ensure delivery of the strategic plan and meet statutory requirements for expansionary activities. The office relocated to Richmond in December 2010 with a smooth transition. The Board took this opportunity to increase its systems capacity to enable a stronger platform for growth.

The Royal Flying Doctor Service Victoria published "The Victorian Vision" for its service and determined to achieve its mission by:

1. Advocating professional ethics, standards and quality health services to government and service agencies:
Activity: Meetings with health leaders and Minister for Health to discuss health needs in rural and regional Victoria.
Research and business paper on provision of RFDS On the Road health services in Mallee/Wimmera area adopted by the Board for commencement in 2011/12.
2. Providing education programs within schools and the broader community:
Activity: Finalised schools program and commenced visits and learning activities across 153 Victorian schools.
Conducted men's health checks at major events and within workplaces.
Exhibition Simulator utilised at events/promotions and within school visits to promote RFDS and health education.
3. Working with indigenous and rural communities in meeting specific health needs:
Activity: Discussions with various regional health agencies provided local knowledge of needs in rural areas.
Collaboration with dental health agencies in designing a mobile dental and oral health program for Victorian communities
4. Collaborating in strong partnership with government, university and corporate organisations:
Activity: Provision of trial non-emergency patient transfer service in partnership with RFDS South Eastern section and regional health networks in Victoria.
Collaboration with Monash University School of Rural health on primary health care research project.
5. Supporting other RFDS sections in meeting service needs:
Activity: Implemented Victorian Support Grants for RFDS sections with financial support provided for research, staff resourcing, medical equipment and health education programs.
Lead agency on aggregate fuel contract across all sections to maximise savings

Over the year RFDS Victoria has expanded its role to include participation in workplace and community health checks, partnerships with a number of corporations and participation at statewide, national and international events within Victoria.

As a result of the adoption of the strategic plan by the Board, yearly business plans were developed and measured. This included the implementation of a new donor management system.

The Victorian section fully participated and contributed to the national agenda and attended meetings of relevance. It continued to take leadership on a number of projects in the national interest.

Support for RFDS Queensland for the increased costs in responding to the Queensland floods was a major campaign and strongly responded to by donors and supporters.

Stronger relationships were consolidated with all other RFDS sections with a number of financial support grants allocated to projects across the country for emergency and health services.

Capital raising campaigns, Christmas and tax appeal campaigns and the development of a strengthened major giving and bequest programs were also major activities for the year.

Dated in Melbourne this 11th day of October 2011.

Signed in accordance with a resolution of the Board of Directors.

Murray Rogers AM
Chairman
